FILED
DEAN W. LINDSEY OFFICE

ON September 5, 1986 the staff in the
 psychiatric ward called me with my life. There
 was an order by Psychology that I not be
 called alone. The truth is, I'm not doing well
 in prison this time. I've been threatened,
 and sexually assaulted. My cell mate
 MR. James Wood # 32013-086 was told if
 I didn't cooperate in an internal investigation
 that would put my life at risk, that they
 would move my cell mate. They moved him
 and he said that I was going to kill myself.
 They moved me from a 5 person cell. They sent
 me to an outside hospital but prevented the
 hospital from doing a psychological
 examination. When I got back here, other
 inmates watched me for four days. They
 put me in S.H.U. 23 Hawk lock up for
 a cell farthest away from STAFF and I
 have told them many times that I am depressed
 but all they do is ignore my requests to
 talk to STAFF. Your Honor, The internal
 investigation revolves around guards and
 the prison compound. I was told by an
 investigator, a MR. Roberts, that if I
 let them for STAFF, they would release
 me that day. Then another STAFF member
 told me the truth. Only you can release me
 and not only was MR. Roberts lying to
 me, but he was putting my life in
 danger and leaving me unprotected in
 a criminal fashion. So I stopped.
 Major, I have 2 1/2 months left in Federal
 custody before I go to Weymouth for
 six months. (over)

#2

Ma'am, over the years you have shown me
that you care. The Hospital at Ratarek
North Carolina Has a unit called Clemons
unit that deals strictly with Traumatic
Somatic like me. do you think you could
find it in your heart to make me
there so I can get some help, some
counseling while I still can. IVE tried
to end my life two times in the past
five months. I don't believe the people
here care at all. But I know that you do.
I want to live a productive life unless I'm
finally released and surely I'm not going
to find anything useful in a hospital
w/ or deaf ears that will help me here.

I Patiently await your response.
