**Re: 3d Periodic Report Concerning Clone on Pager
No. (617) 553-0778**

Dear Judge Harrington:

This is the third (and final) periodic report to you concerning a clone device on the pager assigned telephone number (617) 553-0778 as authorized by your Order dated and issued January 30, 1992. The above order permitted such interception for a thirty (30) day period which has lapsed .

As has been the case throughout the intercept period, the clone pager has not been as productive as we had hoped, due to the fact that the target-subscriber (Alfred Trenkler) relies principally on the "voice mail" option on his multi-option pager rather than on alpha-numeric display messages. In other words, when the number "617-553-0778" is displayed on Trenkler's pager, he telephones the same number and accesses his recorded verbal messages (known as "voice mail") using a separate code number which he touch-dials into the telephone. In order for the government to access such messages, a different type of authorization under Title III would need to be obtained from the Court.

Those digital and alpha-numeric messages displayed upon Trenkler's pager since the last such message intercepted and reported to you within our 2d (letter) Report dated February 20,

1992, are set forth chronologically within Attachment A to 3d Periodic Report (three pages), attached hereto.

This investigation is continuing.

Very truly yours,

WAYNE A. BUDD
United States Attorney
